

**MERCHANT SERVICE  
CENTER**

## **\$1000 RATE GUARANTEE**

- Because of our billions in volume we have a direct-processor wholesale relationship. We can offer extremely low rates.
- We are so certain of our competitive rates that we have a \$1,000 Low-Cost Guarantee. If we can't beat your current rates, you will receive \$1,000 just for participating. To be eligible, send in one complete statement, all pages, from your current processor, from one of the most recent three months. We will review and if we cannot beat your overall effective rate, then you will be paid \$1,000.
- We'll contact you within 1 business day with a complete analysis showing your new low locked-in rates and exactly how much you'll save by switching to us.
- From your first day of processing, you can feel safe that you have a locked-in wholesale merchant rate. We provide all our merchants with a 100% Guarantee that we will beat any competitors effective rate in the future. If not, we will give you another \$1,000. To apply, simply send us the written contract, with all rates displayed, from another merchant provider.
- We pay all programming cost, downloading, shipping and installation charges. We will manage the termination of your old processor for you.
- We provide True Next-Day Funding and Free Equipment, if qualified. Enjoy the benefits of being part of the "Low Cost Guarantee Program." Any existing merchant who refers another qualified merchant who joins our team receives \$100 per qualified referral.
